

NOVALINK RESEARCH COLLISION SOFTWARE LICENSE

NovaLink RESEARCH COLLISION Software whether on disk, in read only memory, or any other media or in any other form is licensed, not sold, to you by NovaLink for use only under these Terms. NovaLink retains all the rights to the NovaLink RESEARCH COLLISION Software itself and reserves all rights not expressly granted to you.

Subject to these Terms, you are granted a limited, non-transferable, non-exclusive and a revocable license to download, install and use the NovaLink RESEARCH COLLISION Software. You may not distribute or make the NovaLink RESEARCH COLLISION Software available over a network where it could be used by multiple devices at the same time. You may not rent, lease, lend, sell, redistribute, assign, sublicense host, outsource, disclose or otherwise commercially exploit the NovaLink RESEARCH COLLISION Software or make it available to any third party.

There is no license fee for the NovaLink RESEARCH COLLISION Software. NovaLink reserves the right to change the license fee policy according to the provisions to change these Terms any time and for any reason, including to decide to start charging the license fee for the NovaLink RESEARCH COLLISION Software. You are responsible for any and all applicable taxes.

You may not, and you agree not to or enable others to, copy, decompile, reverse engineer, reverse compile, disassemble, attempt to derive the source code of, decrypt, modify, or create derivative works of the NovaLink RESEARCH COLLISION Software or any services provided by the NovaLink RESEARCH COLLISION Software, or any part thereof (except as and only to the extent any foregoing restriction is prohibited by applicable law or to the extent as may be permitted by the licensing terms governing use of open-sourced components included with the NovaLink RESEARCH COLLISION Software).

If you choose to allow automatic updates, your device will periodically check with NovaLink for updates and upgrades to the NovaLink RESEARCH COLLISION Software and, if an update or upgrade is available, the update or upgrade will automatically download and install onto your device and, if applicable, your peripheral devices. You can turn off the automatic updates altogether at any

time by changing the automatic updates settings found within the NovaLink RESEARCH COLLISION Software.

You agree that NovaLink as well as any affiliated entity or third-party providers providing services in the context of the NovaLink Platform, NovaLink Services and NovaLink Cloud (“Third-party providers”) may collect and use technical and related information, including but not limited to technical information about your hash power, system and application software, and peripherals, that is gathered periodically to facilitate the provision of software updates, product support and other services to you (if any) related to the NovaLink RESEARCH COLLISION Software and to verify compliance with these Terms. NovaLink may use this information, as long as it is in a form that does not personally identify you, to improve NovaLink Platform, NovaLink Services and NovaLink Cloud.

NovaLink RESEARCH COLLISION Software contains features that rely upon information about your selected RESEARCH COLLISION method. You agree to the transmission, collection, maintenance, processing, and use of all information obtained from you about your selected RESEARCH COLLISION method. You can opt out at any time by going to settings in the NovaLink RESEARCH COLLISION Software.

NovaLink RESEARCH COLLISION Software license is effective until terminated. All provisions of these Terms regarding the termination apply also for the NovaLink RESEARCH COLLISION Software license. Upon the termination of NovaLink RESEARCH COLLISION Software license, you shall cease all use of the NovaLink RESEARCH COLLISION Software and destroy or delete all copies, full or partial, of the NovaLink RESEARCH COLLISION Software.

THIRD PARTY RESEARCH AND PLUGINS

Third Party Research and Plugins are a third party software which enables the best and most efficient RESEARCH COLLISION operations. NovaLink integrates third party RESEARCH COLLISION software using a third party plugin system. Third Party RESEARCH COLLISION Software is a closed source software which supports RESEARCH COLLISION algorithms and can be integrated into NovaLink

RESEARCH COLLISION Software. Third Party Research Plugin enables the connection between NovaLink RESEARCH COLLISION Software and Third Party RESEARCH COLLISION Software and it can be closed, as well as open sourced.

In case the Third Party RESEARCH COLLISION Software is close-sourced and the software source cannot be inspected, NovaLink diligently implements Third Party RESEARCH COLLISION Software Guidelines accessible at NovaLink Platform website in order to increase security with regards to the NovaLink Research integration.

NovaLink RESEARCH COLLISION Software user interface enables the user to manually select which available Third Party Research and Plugins will be downloaded and integrated. Users can select or deselect Third Party Research and Plugins found in the Plugin Manager window. Some of the available Third Party Research and Plugins which are most common are preselected by NovaLink, but can be deselected, depending on users' needs. The details of the Third Party Research and Plugins available for NovaLink RESEARCH COLLISION Software are accessible within the NovaLink RESEARCH COLLISION Software in your personal account.

NovaLink will not be liable, to the maximum extent permitted by applicable law, for any damages of any kind, including, but not limited to, direct, consequential, incidental, special or indirect damages, arising out of using Third Party Research and Plugins. The latter includes, but is not limited to: i) any power outages, maintenance, defects, system failures, mistakes, omissions, errors, defects, viruses, delays in operation or transmission or any failure of performance; ii) any unauthorized access, alteration, deletion, destruction, damage, loss or failure to store any data, including records, private key or other credentials, associated with usage of Third Party Research and Plugins and ii) Force Majeure Event, communications failure, theft or other interruptions.

If you choose to allow automatic updates, your device will periodically check with NovaLink for updates and upgrades to the installed Third Party Research and Plugins, if an update or upgrade is available, the update or upgrade will automatically download and install onto your device and, if applicable, your peripheral devices. You can turn off the automatic updates altogether at any time by changing the automatic updates settings found within the NovaLink RESEARCH COLLISION Software.

NOVALINK PRIVATE ENDPOINT

NovaLink Private Endpoint is a network interface that connects users privately and securely to NovaLink Stratum servers. Private Endpoint uses a private IP address and avoids additional latency caused by DDOS protection. All NovaLink Private RESEARCH COLLISION Proxy servers are managed by NovaLink and kept up-to-date.

Account holders can request a dedicated private access endpoint by filling in the form for NovaLink Private Endpoint Solution available on NovaLink Platform. In the form the Account holder specifies the email address, country, number of connections and locations and algorithms used.

NovaLink may request additional information from the Account holder of the Private Endpoint Solution.
